

Dead America: Heartland Pt. Dead America: The Second Week 12

In the wake of a devastating nuclear war, the United States has been reduced to a lawless wasteland. A group of survivors, led by a former soldier named Jericho, travel across the country in search of a new home. Along the way, they encounter a variety of challenges, including raiders, mutants, and the remnants of the old world.

In the second week of their journey, Jericho and his group arrive in the heartland of America. They find that the cities have been destroyed, but the countryside is still relatively intact. However, the land is also home to a variety of dangerous creatures, including packs of wild dogs and mutated animals.

Jericho and his group must also contend with the remnants of the old world. They encounter a group of former soldiers who have turned to banditry, and a group of scientists who are trying to rebuild society. Jericho must decide whether to trust these people or to continue on his own.
