

Kineosho Learns To Walk Pratish Mistry

Kineosho, a revolutionary exoskeleton device, has empowered Pratish Mistry, a 7-year-old boy with cerebral palsy, to take his first independent steps.

Pratish was born with cerebral palsy, a condition that affects muscle tone, movement, and coordination. As a result, he was unable to walk or stand on his own. However, thanks to Kineosho, Pratish is now able to experience the joy of walking.

What is Kineosho?

Kineosho Learns to Walk by Pratish Mistry

Kineosho is a state-of-the-art exoskeleton device that provides support and assistance to individuals with mobility impairments. It consists of a lightweight frame that fits around the user's body and motorized joints that assist with movement. Kineosho is designed to improve mobility, balance, and coordination, allowing users to achieve greater independence.

Pratish's Journey to Walking

Pratish began using Kineosho in 2021 at the Cerebral Palsy Foundation in Mumbai, India. With the help of skilled therapists, Pratish gradually gained control over the exoskeleton. He started by practicing standing upright, then progressed to taking a few steps with assistance.

A Team Effort

Pratish's journey to walking was made possible through the support of a dedicated team of professionals, including therapists, doctors, and engineers. The team worked closely with Pratish, monitoring his progress and adjusting the Kineosho device to meet his specific needs. Pratish's parents also played a crucial role, providing encouragement and support every step of the way.

The Joy of Walking

For Pratish, the ability to walk is a transformative experience. It has given him the freedom to explore his surroundings, play with friends, and participate in activities that were previously impossible. Pratish's newfound mobility has also had a profound impact on his confidence and self-esteem.

The Future of Kineosho

The success of Kineosho in enabling Pratish to walk is a testament to the potential of this innovative technology. Kineosho has the potential to transform the lives of millions of individuals with mobility impairments worldwide.

How You Can Help

The Cerebral Palsy Foundation is a non-profit organization dedicated to improving the lives of children with cerebral palsy. The foundation provides funding for Kineosho devices and therapy programs, enabling more children like Pratish to experience the joy of walking.

If you would like to support the Cerebral Palsy Foundation and its mission to empower children with cerebral palsy, please consider donating today.

Kineosho is a truly life-changing device that has given Pratish Mistry the opportunity to walk and live a more fulfilling life. Through the support of a dedicated team and the power of innovation, Pratish has achieved a milestone that once seemed impossible. The success of Kineosho is a reminder that anything is possible with determination, resilience, and the support of others.
